Mike Ortman | Software Engineer

Principal-level software engineer specializing in commerce and billing systems at scale, with 13 years building full-stack services with a track record of leading cross-functional teams and mentoring engineers across distributed organizations.

Experience

Senior Software Engineer II | Boulevard | 1 year
December 2024 - Present

- Co-led the team that built an agentic AI voice receptionist end to end, spanning telephony, prompt engineering, tool calling, and safeguards, and integrating third-party providers including Twilio, ElevenLabs, and Retell AI.
- Built the payment wallet within Boulevard's CRM using TypeScript, Elixir, and PostgreSQL, enabling staff to manage their clients' payment methods, vouchers, and gift cards.

Software Engineer IV | Asurion | 1.5 years
February 2023 - August 2024

- Led a cross-functional team to build a scalable billing service processing over $1B annually.
- Optimized build, test, and deployment pipelines using GitHub Actions, reducing build and test times by 80%.
- Developed TypeScript-based microservices with MySQL, leveraging Docker, Kubernetes, and AWS for high availability.
- Mentored junior and offshore engineers, promoting a culture of high-quality code and continuous learning.
- Ensured compliance with PCI, PSD2, and GDPR by effectively managing sensitive PII.

Senior Software Engineer, Software Engineer | Atlassian | 7 years
January 2016 - September 2018, March 2019 - February 2023

- Led a team of 5 engineers to develop a high-performance user search service using Elasticsearch, SQS, and Java/Spring microservices.
- Enhanced Confluence user experience by developing LLM-based autocomplete microservices in Atlassian Intelligence, reducing average content creation time for users.
- Managed zero-downtime migration of a large-scale Elasticsearch cluster, ensuring data integrity and service continuity.

Staff Software Engineer, Software Engineer | IBM | 4 years
December 2011 - January 2016

- Developed features for IBM MobileFirst framework with a Java backend and JavaScript/jQuery frontend, enhancing mobile application capabilities.
- Built responsive client-side applications for enterprise customers using AngularJS, jQuery, and D3.

Education

Tennessee Technological University
Computer Engineering, Bachelor of Science (BS)
August 2007 - May 2011
